

DO IT YOURSELF

How to make happy smiling upcycled Nutella® jars

Hard

WHAT IS NEEDED

1 empty Nutella® jar

Spray paint in 2 different colours

Adhesive tape

Paper for masking and to cover work surface

Waterproof pen

Plants

METHOD

1

Spray your Nutella® jar with one of the paints in a well ventilated area.

Tip: Read carefully the spraying instructions on the canister. Don't forget to cover your work area. It's better to apply two thin coats so the colour will dry without running.

2

When the paint is dry, mask the top half of your jar.

3

Spray the bottom half with the other colour, and allow the paint to dry.

4

Paint a face onto your vase using a waterproof pen.

Tip: You can find planting instructions for your vase [here](#)!
