

DO IT YOURSELF

How to make happy smiling upcycled Nutella[®] jars

Hard)

WHAT IS NEEDED

1 empty Nutella® jar

Spray paint in 2 different colours

Adhesive tape

Paper for masking and to cover work surface

Waterproof pen

Plants

METHOD

Spray your Nutella[®] jar with one of the paints in a well ventilated area.

Tip: Read carefully the spraying instructions on the canister. Don't forget to cover your work area. It's better to apply two thin coats so the colour will dry without running.

When the paint is dry, mask the top half of your jar.

Spray the bottom half with the other colour, and allow the paint to dry.

4

Paint a face onto your vase using a waterproof pen.

Tip: You can find planting instructions for your vase here!
