

DO IT YOURSELF

Your Christmas holiday decoration with an empty Nutella[®] jar

Easy

WHAT IS NEEDED

- 1 clean, empty Nutella[®] jar with lid
- A string of mini fairy lights with battery
- Mini Christmas baubles
- Assorted pine cones

METHOD

**1**

Place pine cones and baubles in the jar, in alternate layers.

**2**

Now insert the light string. If possible the battery box should be at the top close to the rim, so you can easily switch it on and off.

**3**

Now fill up the remainder of the jar, arranging it with alternating layers of baubles, cones and the light string. Finally, screw the lid onto the jar.
