

DO IT YOURSELF

# Make a plant jar from an empty Nutella® jar

Easy

## WHAT IS NEEDED

1 empty Nutella® jar

Pebbles

Potting soil

Plants

## METHOD

- 1 | Fill the jar with pebbles to a depth of approximately 2 cm. This will prevent your jar from becoming waterlogged.

- 2 | Fill the jar with potting soil, up to the top third.

- 3 | Arrange the plants in the jar and fill with soil up to the rim. Gently press the soil down and add water.

**Tip:** Make sure that no water is left standing in the jar.
