

DO IT YOURSELF

# Create a soap dispenser with a jar of Nutella®

Medium

## WHAT IS NEEDED

- 1 empty Nutella® jar with lid
- Sea-themed stickers
- Cutter / craft knife
- Soap with pump dispenser
- Marker pen

## METHOD

- 1 | Clean your Nutella® jar and lid. Remove the card from inside the lid.

- 2 | Draw a circle with the diameter of the threaded neck of the soap bottle, in the middle of the lid. Cut the circle out using your cutter.

**3** Use the cutter to remove the screw neck from the soap bottle. Take care to remove approximately 3 cm of the bottle, together with the screw neck.

**4** Push the tube through the bottom of the lid and screw on the dispenser pump from the top.

**Tip:** You might have to trim the pump, depending on the size of the jar.

**5** Now fill the jar with soap and screw the lid onto the jar. Decorate your new soap dispenser with your chosen stickers. Finished!  
You can now decorate your new soap dispenser with stickers of your choice. All done!
