

DO IT YOURSELF

Unicorn party decoration in a Nutella® jar

Easy

To make it, you will need:

1 empty Nutella® jar without a lid

Light pink acrylic paint

Paint brush

Black acrylic pen

Glitter dust

Liquid craft glue

Sparkly cardboard

Light pink cardboard

Artificial flowers

Glue gun

INSTRUCTIONS

- 1** | Paint the empty Nutella[®] jar with the light pink acrylic paint and let it dry well. You can give it a second coat if necessary.

Note: As every type of paint reacts differently on glass, read the paint instructions carefully. Don't forget to cover your work surface.
- 2** | Now think of a face for your unicorn. Draw on the eyes and nose one after the other with a black acrylic pen and prepare the cheek areas with liquid craft glue. Dust some glitter onto the wet glue spots to make your unicorn's face shine.
- 3** | Of course, you can never have enough glitter, so cut out the unicorn's horn and ears from the sparkly and the pink cardboard and attach them to the edge of the jar using the glue gun. Note: Be careful not to burn yourself when using the glue gun. Children should be supervised by an adult.
- 4** | Finally, decorate your unicorn with a colourful wreath of flowers. Done! Now your unicorn party can really get started!
