

DO IT YOURSELF

Nutella[®] jar money box

Medium

To make it, you will need:

1 empty Nutella[®] jar with lid

Acrylic pen

Acrylic paint

Self-adhesive film

Craft knife

Small tweezers

INSTRUCTIONS

1

From the self-adhesive film, carefully cut out small hearts or motifs that match your savings goal and stick them onto your jar. Make sure you leave a free space to write your goal.

2

Carefully paint your jar in the colour of your choice and let it dry well. You can give it a second coat if necessary. Now carefully remove the stickers with the tweezers.

Note: As every type of paint reacts differently on glass, read the paint instructions carefully. Don't forget to cover your work surface.

3

Use the craft knife to carefully cut a slit approx. 3-4 cm long and a few millimetres wide in the lid to make the coin slot. Then screw the lid onto the jar.

Note: Be careful not to cut yourself when using the craft knife.

Now you can work on the free space. What goal do you want to achieve?

Write it down. Happy saving!
