

DO IT YOURSELF

How to make a clay flower vase with a Nutella® jar

Medium

WHAT IS NEEDED

1 empty Nutella® jar

Air-dry clay

Craft mat

Knife

Rolling pin

To decorate the clay: Rubber stamps, doilies, leaves

Spring flowers

METHOD

**1**

Roll out your air dry clay like cookie dough, large enough to fit once around the Nutella® jar.

**2**

Cut out a 6 cm wide strip.

**3**

Mould the strip of clay around the bottom part of the jar and trim off the edges carefully using the knife.

4

Use the rubber stamps to create your own design, or you can press doilies or leaves into the clay to create a pattern.

Tip: Leave to dry for about 2 days so the clay sets completely.

5

Fill your vase with spring flowers.

Tip: Don't allow your clay to come into contact with water for too long.
