

DO IT YOURSELF

A jar full of love

Easy

WHAT IS NEEDED

1 empty Nutella® jar with lid

Red spray paint

Glue stick

Marker pen

Thin ribbon

Red and white card

Heart template

A favourite photo

Red heart sticker or red adhesive foil, so you can paint on and cut out heart shapes

METHOD

1

Remove the card from the lid and spray it with red spray paint.

Tip: Don't forget to cover your workspace before you spray. Apply two thin coats, so the colour doesn't run.

2

Decorate the jar with the heart stickers.

Use the round card from the lid as a template to cut out your chosen picture. Then stick your picture onto the card.

3

Glue the round card with your picture onto the outer side of the lid. Cut as many heart shapes as you want for your jar from the red and white card.

You'll find a heart template for the candle jar in our download area.

4

Write little notes or messages on the heart shapes, fold them and place them into the jar.

5

Cut out a large heart as a greeting card, which you can send together with your jar. All done!
