

DO IT YOURSELF

Nutella[®] jar seascape

Medium

To make it, you will need:

- An empty Nutella[®] jar
- Blue food colouring
- Water
- Stones
- A walnut shell
- A cocktail stick
- A glue gun (adult use only)
- White paper
- Scissors
- Glue stick
- Wire
- White acrylic paint
- Paint brush
- Wire cutters (adult use only)
- Cuerda gruesa (cuerda o cordel)
- Thick string (cord or twine)
- Seashells
- A dry twig
- Sand

INSTRUCCIONES

- 1** Use the brush to apply glue to the outside bottom edge of the jar and sprinkle sand on the glue. Wrap a piece of string around the neck of the jar and tape both ends of the string to the jar.
- 2** Take a piece of wire and bend it into an anchor shape. To do this, bend the wire in the middle, twist it into a braid and bend the two ends into semicircles. Then paint the anchor white.
- 3** Draw the thread through the eyelet of the anchor, hang it around the neck of the jar and tie off the ends.
- 4** Dye the water blue and pour it into the jar along with rocks, shells, and twigs. It's best not to fill the jar completely.
- 5** Cut off one end of the cocktail stick and place it into the walnut shell for a mast. Cut a triangle from a piece of paper and glue it to the cocktail stick as a sail.
- 6** Place the walnut shell boat in the jar on the water. Your Nutella® jar seascape is ready!
